

A close-up photograph of a hand with blue paint on the fingers and palm, touching a large, colorful abstract painting. The painting features vertical streaks of purple, blue, green, and orange, with a more chaotic, multi-colored area on the right side. The word "Welcome" is overlaid in white text on the painting.

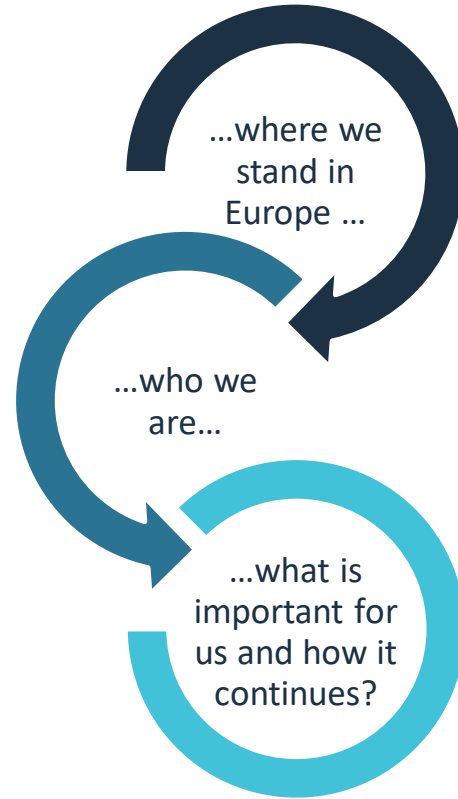

Welcome

Paul Bomke
Chief Executive Officer (CEO)
Pfalzkllinikum

* Facilities of the State Hospital

Facilities of Pfalzlinikum (AdöR)

PIA: psychiatric institutional outpatients' department; RPZ: regional center of psychosomatics in the South-Palatinate; BIFID: professional rehabilitation and integration; SIA: institutional outpatients' department for addiction, G-PIA: gerontopsychiatric institutional outpatients' department; APP: outpatient psychiatric care; ACT: Assertive Community Treatment *reference to organisation chart

What is important for us?

Normal world

Focusing on individual needs

on even handed level

Orientation into the
Community

Negotiation rather
than treatment

Home treatment

Deinstitutionalization

made-to-measure, multi-professional, personal model project at Pfalzlinikum

- term of 8 years, starting January 2020.
- biggest model project in Germany* regarding financial volume and service range.
- coherent treatment, integrative and focused on the individual for children, young adults and adults.
- treating affected individuals differently, not treating different individuals.
- fluent transitions between hospital inpatients, outpatient services and ambulatory services.
- steady set of caregivers all along the therapeutic path.
- increased degree of visiting care by multi-professional teams.
- stronger involvement of affected individuals and their environment during the treatment.
- sub-projects within the model project: personnel and organizational development; funding and finance; services and structures; evaluation and communication

* after § 64b SGB V

DAK
Gesundheit
Ein Leben Lang.

Services of integration support

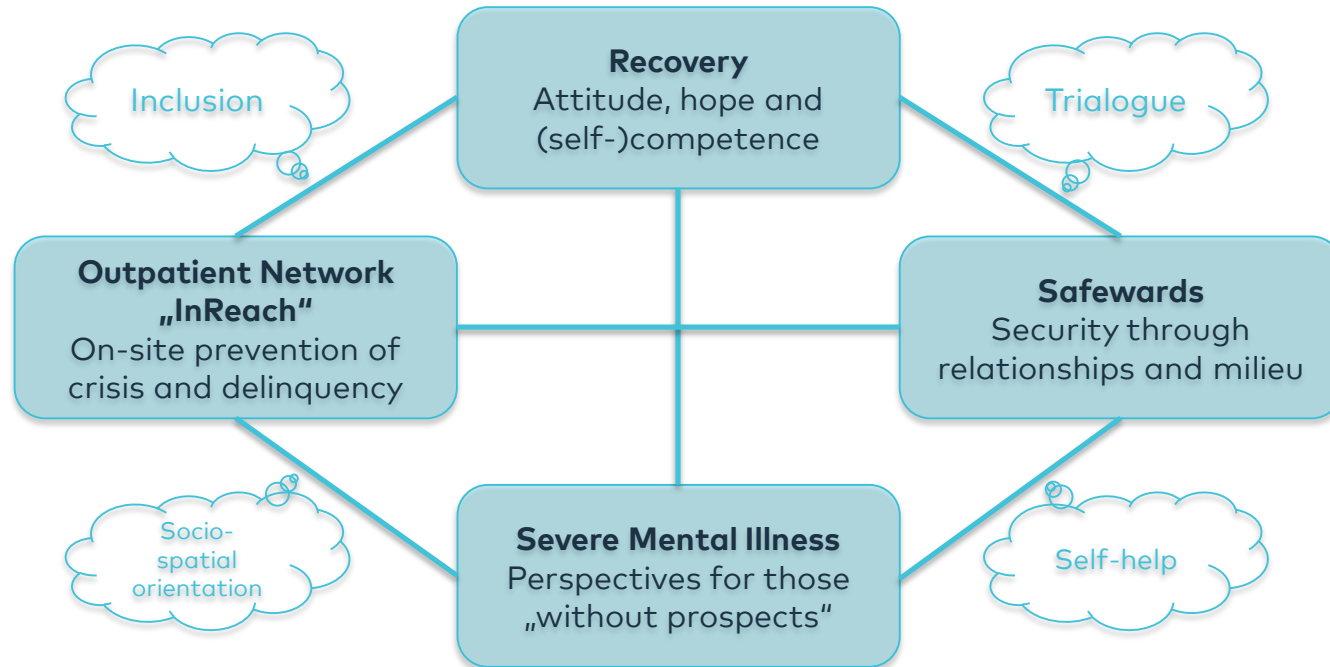

- › separation of the divisions of Care-Foster-Live
- › person-centered approach of assistance services
- › provision of services according to individual need of assistance
- › adaptation of the structures to the model (e. g. management organization)
- › high degree of involvement of peers and employees
- › accounting with new financial logic, reduction of bureaucracy

Future Concept of Forensic Treatment

Synthesis of living environments: between hospital treatment order and psychosocial treatment
